SPRAY MANIFOLD OPERATION

Model #RP1-L15WIN

APPLICATIONS

With the ability to be custom built to fit any carwash, these systems will rinse with spot-free water to keep the windows of your business clean and professional.

SETTINGS

Adjustable interval (minutes) and duration (seconds) to allow operator to adjust rinse setting to meet cleaning requirements. Also eliminates unnecessary rinse cycles and water waste.

SPRAY MANIFOLDS

Diaphragm check valves with each spray manifold for immediate rinse applications on pump activation.

NOZZLES

Wide angle, high volume spray nozzles maximizes reach and power to give the highest quality rinse.

PUMP

Sized to each application to ensure adequate volume and pressure for effective rinsing. Includes low limit shut-off with float switch.

INSTALLATION

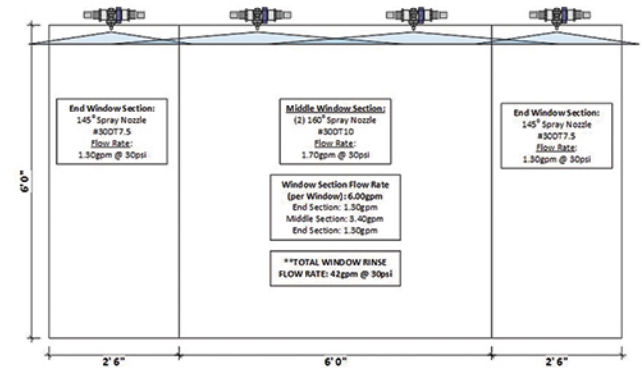

Spray manifolds are easy to install and plumb. Install kit includes 100ft of 3/4" hose and all necessary fittings.

OPERATION

Toggle switch on control box allows operator to shut-down system, run in auto (timer) mode, and manually run window rinse system.

OPTIONS

Customizable systems are available. Please contact Velocity Water Works or your authorized dealer for sizing and support
